

## **Justice by Crazy Means - John Gosebo**

### **Abstract**

Justice by Crazy Means explores the uneasy space between justice and revenge.

When former intelligence operative Joel Malebana retreats to his remote Limpopo village, he hopes to leave the shadows behind. But a wave of violent crime and a failed justice system drag him back into the world he thought he'd left for good. Meanwhile, Tom Triton-a scandal-haunted ex-husband of the President and now head of a private security firm-uncovers a plot that threatens the country's fragile stability. To stop it, he must find Malebana and convince him to fight again.

What unfolds is a dark and complex journey into power, betrayal, and retribution-where the rule of law proves no match for those willing to pursue justice by any means.
